WHO IT'S FOR

Contractors, agencies, professional services, memberships and retainers, and anyone still waiting on checks.

WHAT IT DOES

- Smart invoicing with deposits or installments, reminders, late fees, and early-payment discounts.
- Text-to-pay and payment requests, payment links, and QR codes.
- Recurring billing for memberships, retainers, subscriptions, and payment plans.
- Virtual terminal for phone orders; a branded customer portal for viewing invoices and saved payment methods.
- Card and ACH, with dual pricing that offers a lower price for cash or ACH.
- Two-way QuickBooks Online sync for invoices, payments, and customer records.

HOW SEAN HANDLES IT

Sean reviews how the business collects payments today, then sets up Pay Center and the QuickBooks workflow so deposits reconcile. A demo with the client's own invoices is the usual first step.

Availability, compatible hardware, integrations, program eligibility, and any software or add-on costs are confirmed in a written quote. No pricing in this sheet on purpose.

SPOT IT

- "We're always chasing invoices"
- Migrating to or cleaning up QuickBooks
- "Deposits never match our books"
- Building a client portal or quote-to-invoice flow on a site

SAY THIS

"Want your clients to pay those invoices online by card or bank? Sean sets that up and ties it to QuickBooks so the books stay clean."

THEN

Send the contact to Sean the same day, or point the client to **guidedpayments.com/payments-center**. Sean takes it from there.
