## WHO IT'S FOR

Full-service restaurants and bars, multi-location operators, and retailers who need inventory depth. Android and iOS options.

## WHAT IT DOES

- Restaurant: customizable floor plans, coursing, split checks and modifiers, bar-tab pre-authorization, time clock.
- Retail: stock tracking, UPC/barcode support, label printing, purchase orders, customer displays, margin analysis.
- Quantic Lite for ordering and paying at the table; Quantic eCommerce for online ordering, pickup, and delivery.
- Integrations include QuickBooks, 7shifts, MarginEdge, and Stream. Add-ons: kitchen displays, self-order kiosks, loyalty, digital signage.

## HOW SEAN HANDLES IT

Sean is an authorized Quantic reseller. Hardware, software, and processing are quoted as one monthly number, with install and training scheduled on delivery. Compatibility and third-party costs are confirmed before anything is ordered.

Availability, compatible hardware, integrations, program eligibility, and any software or add-on costs are confirmed in a written quote. No pricing in this sheet on purpose.

## SPOT IT

- A restaurant with a floor plan, servers, and a bar
- A second or third location
- "Our POS can't do X" (tables, inventory, online ordering)

## SAY THIS

**"Sean sets up Quantic for restaurants like yours, and quotes the software and processing together. Worth a demo before you sign anything."**

## THEN

Send the contact to Sean the same day, or point the client to **guidedpayments.com/pos-center**. Sean takes it from there.
